

SAT / ACT BOOTCAMP

MARCH 25 - MARCH 30

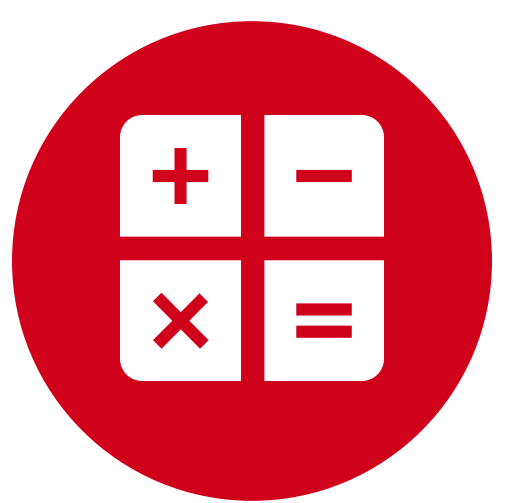

9AM - 3PM | 6,000 AED

Program Overview

Our bootcamps are specifically designed for students preparing for the SAT and/or the ACT. Over the course of one week, students come together to be drilled in all the key content and strategies.

This course covers the fundamental Math, Writing, Reading, and Data Analysis concepts, as well as critical thinking and problem-solving skills.

MATH

Student will receive a comprehensive review of all math content students need to know from the Heart of Algebra to Problem Solving & Data Analysis. Lessons will focus on using core content, techniques, and building mental math skills.

READING

Reading comprehension is an essential skill. Students will learn how to identify main ideas and evidence in university-level texts.

WRITING

Students will learn the most important parts of English grammar and usage, sentence structure, and idea expression. Students also will learn how to write rhetorical analyses.

DATA ANALYSIS

Students will learn how to answer questions based on infographics (e.g. charts, tables, figures, graphs, etc.).

...AND MORE

Our exam preparation course is taught in small groups, ensuring that each student receives personal attention. Students will also receive detailed exam analysis on all practice exams.
